## MOTHER'S DAY PRAYER CARDS

Religious Education once again will offer an opportunity for you to honor the special women in your life - your Mother, Grandmother, Godmother, Aunt, Sister, Wife, Mother-In-Law, Daughter, Friend – those women who helped you to be the person you are – this Mother's Day.

happy mother's day

Mother's Day Prayer cards will be available in the back of the church and in the chapel hallway.

Beginning this weekend, there will be two baskets, one containing cards for the living and another with envelopes to list the deceased. A basket will be placed at the altar on Mother's Day weekend May 13-14. The intention of all names in the basket will be prayed for collectively during the Prayers of the Faithful.

We'd like to publish the names of all to be remembered in the May 13 -14 bulletin. We ask that you return the enrollment envelopes with your donation and the **names clearly printed or typed, no later than MONDAY, May 1**, by dropping them in the Sunday collection basket or bringing them to the Ministry Center (Monday, Wednesday or Friday 10am - 6pm) or in our parish drop box (24/7).

**PLEASE NOTE:** Names received after Monday, May 1, will be placed on the altar and remembered at the Mother's Day Masses. However, if by time constraints they are unable to be included in the Mother's Day bulletin, the names will appear in the May 20-21 bulletin.

***Please help the Religious Education Program in this important fundraiser.***

***Remember your special "Moms" in this spiritual way on Mother's Day!***

### **Managing Runoff with Rain Gardens**

Managing stormwater runoff in our yards and communities is challenging but important. Left unchecked, stormwater carries pollutants from roofs, chemically treated lawns, driveways and roads into streams and waterways. Increasing ways for water to be absorbed through landscaping makes for healthier land and water for all.

One home solution is the "rain garden." Rain gardens are shallow depressions filled with perennial native plants which temporarily collect a few inches of rain. Plant roots then slowly filter out pollutants and allow the water to percolate into the surrounding soil. Up to 30% more water is absorbed into the ground. Besides alleviating problems associated with flooding and drainage, rain gardens can beautify yards, recharge the ground water supply and provide habitat and food for wildlife, including birds and butterflies. For more information, pictures and "how to" instructions, <https://tinyurl.com/rgrdn>.
