Creation Care Corner

"All of us can cooperate as instruments of God for the care of Creation."
—Pope Francis

WEEKLY STEWARDSHIP RECOMMENDATION:

Buy Fresh, Local, Organic

Food travels an average of 1,200 miles before it reaches your plate, so buying locally grown can save energy and prevent air pollution. Also, fresh foods require significantly less energy than frozen foods (but watch out for spoilage which contributes to food waste!). Organics benefit the environment by not relying on synthetic pesticides or fertilizers which can contaminate soil and water. Other benefits of using fresh, local and organic sources can be healthier foods with better taste. Farmers markets and Community Supported Agriculture (CSAs) are both great ways to support a local food system.

It only takes a short time and it is time well spent!
