## **Music Department News**

Hello! Sue and I have been the Directors of Music Ministry since 2018. We love being part of this family! During our time here, we have improved the sound system, worked to build the choir, added a new vocal group (Voices of Praise) and brought new music to you. With the help of Sacred Heart organizations and your generous donations, we were fortunate to be able to update our Gather books in 2020.

Currently we are looking to upgrade the piano in the church. Let me explain.

First of all, given the age of the electronic piano, there have been a number of service calls that have been made and parts have been replaced. However, the parts needed to keep it up and running are hard to get because of the age of the instrument. Just like many other older instruments or appliances, as they age, companies don't carry parts for very long because new models come out every year.

There are issues with the current piano that are concerning and indicate a failure could happen soon and a quick decision would need to be made to replace it and could leave us without a piano. Therefore, we need to be proactive in replacing the piano before it breaks down. In the world of technology things change very fast and what's new this year is obsolete and out of date a year or two later. We all know this when it comes to our cell phones, computers and TVs. This brings out the second point.

The proposal here is not to go electronic but acoustic. Acoustic pianos have been around for hundreds of years and all pianists prefer and perform better on the acoustic piano as it is the real instrument. Electronic pianos are lower quality and an imitation of the acoustic piano. An acoustic piano from a reputable manufacturer of high-quality pianos can last over 50 years. In comparison, electronic pianos are lower quality and are rated 10-20 years.

At this time, we wanted to inform the parishioners as well as open up the possibilities for sponsors interested in funding the new piano for our church. If interested in sponsoring us please see me, John O'Keefe or Fr. Jacek for more information.

## Creation Care Corner

### Ecological Sin

In Pope Francis' encyclical *Laudato Si'*, a holistic understanding of sin is presented. It is the rupture of the basic relationship with the Creator, with our fellow human beings and with creation itself. All of creation is a message of love from God. As such, the destruction of our planetary home is a sin against God. It constitutes nothing less than disrespect towards the Creator. Similarly, it constitutes a sin against our fellow human beings, since a healthy natural environment is for the collective good.

Pollution of land, water or air that harms the health of others is to be considered sinful. In the case of anthropogenic climate change, excessive greenhouse gas emissions which impact poor or vulnerable communities are also considered sinful. If ecological sin is a rupture of fundamental human relationships with the Creator and the rest of creation, then we need to heal that rupture. "It is significant that the harmony which Saint Francis of Assisi experienced with all creatures was seen as healing that rupture" (LS 66). Attribution: Fr. Joshtrom Kureethadam – Vatican's Dicastery for Promoting Integral Human Development, from his book *The Ten Green Commandments of Laudato Si'* (p.73-87)

"...we see how environmental deterioration and human and ethical degradation are closely linked" (LS 56).  
-Pope Francis
